SOFIHUB

SOFIHUB Procare

Customisation & integration of Sofihub products into your business

At Sofihub we understand the benefits of introducing new technologies or products to your existing portfolio.

Through our partnership program "Sofihub Procare", we work with selected businesses to integrate our product suite into your channels, ensuring significant added value to your product offering.

To suit specific requirements across unique environments including **Aged Care Services, Home Care Services, Building & Infrastructure and Security Monitoring** our locally based software & hardware design team will be able to work on a bespoke solution.

Our customised solutions include:

✓ Exclusive and co-branding of the product

✓ Packaging & point of sale customisation

✓ Backend integration into your existing monitoring systems or BMS

✓ Technical & sales support training
